

RAIN

R = Riches

A = Abundance

I = Illuminating

N = Nourishing

We are energy. Energy calls to Energy. You are facing large bills, financial setbacks, large debt. I have been there. A huge error that I made is that I allowed myself to get on the pity merry go round. Not anymore!

We are going to call on the energy of prosperity. Prosperity can mean money, as well as many things. Prosperity for me encompasses pretty clothes, good health, going on one day trips, refrigerator filled, days that flow in happiness.

What does prosperity mean to you?

We are going to close our eyes. You can sit or stand for this. Sometimes I like to stand doing this. We are going to call on Rain. The rain of prosperity in all forms to fall on us.

Imagine the rain coming down on us. The Rain can be in any color: blue, green, rainbow. The Rain can be light spring rain or a downpour. Let the rain cleanse all your worries and fears that are clinging to you. Do this until you feel lighter, happier or calm.

You can do this every day. Three times a day. It is your choice. Prosperity is an energy. An energy we can tune into to lift ourselves up and our lives right on track.
